

### Local Intelligence.

PRESCOTT, August 14, 1889.

GEN. A. J. ALEXANDER. - This courteous, and edcient army officer passed through town Sunday last, on his way from his new post at Camp gate to camp McDowell. He goes to Mclowed for the purpose of getting his wife and ousehold gods and moving them to the Toll-gate, having been unable to get transportation for them when he left there, some three weeks ago. We understand that the General is well pleased with his new location.

LIEST, WHEELER A. A. Q. M., at the new camp at the Toll-gate came into Fort Whipple and rescott late last week, and, in company with Geo. W. Bowers, started back about noon Monday last. We had an introduction to the Lieutount, found bim to be an agreeable gentleman. and fally alive to the importance of reconstructing the rebal Apaches.

Frets Graveret, -George Props, the man who shot and wounded himself a short time ago, is nor nearly all right again, and requests us to ender his sincere thanks to the citizens of Presgett for their kindness in contributing money for is relief, more particularly to Messrs. Alken and Griffin for their efforts in raising said money, and to Dr. Geo. D. Kendall, for "kind attention. still and gentlemanty conduct."

Or lair there has been some talk, in military raiss, of abandoning Fort Whipple and foundor a new post somewhere in the vicinity of Bill Williams' mountain, some 60 or 70 miles north of Prescott, but we have that nothing of the sort will be done, and cannot believe that any such change is seriously contemplated by the military otherities. If a post is needed at or near the aforesaid mountain, one should be established. but it would be a very unwise act to strip the dements surrounding Prescott of all protecon for the sake of founding a new post in a region of country where there are no settlers to rotect, and but few Indians to war upon. Right re is where we need the protecting arm of our

WILLOW VALLEY is getting to be a great resort for the fushionable folks of town and country. he Sunday, recently, we learn, A. C. Williamso entertained some fifty people in a very satisactory manner. Crowds also visit the ranches of W. Johnson, L. A. Stevens, Eli Puntney, and Adam Scott, every Sunday, to see the melons and other good things growing there.

As will be seen by notice in another column, C. Williamson, the model ranchero of Willow alley, wishes people traveling back and forth, rough his ranch, to do so upon the road, and ot "cut across lots," as some have been in the habit of doing.

Our ancient and honorable friend, M. K. Lerty. has rented his fine rauch in Woolsey valley, and s in town, comforting himself as becomes one of his age and dignity.

GLAD TO SEE IT .- No better proof is required y as to know that many of the citizens of this ace enjoy life and are increasing their stores wealth, than the number of luxurious-lookon gay steeds, and ride into the country for exire. Although not able to do so ourself, we o not envy these lucky individuals; on the conrary, we pat them on the back, and advise them o go it while they're young.

Joux A. Rusu has commenced the erection of

Now, while lumber is so very cheap, is a good ne for people who own vacant lots in town to build houses upon them. At present there is a pected, houses will soon be in great demand. . . . If our people desire to fence in the plaza, the present is a prophlious time to secure the mate-

We have heard some grambling in regard to the action of the Supervisors in tastructing the Collector to collect from tax-payers ten per centun over and above the amount of taxes levied, for fees. Guess a little graubling will not be objected to, as, this year, we fear, it will be hard work for many to make ends meet.

ECONOMY.-We cannot too deeply Impress upbe minds of our people the good results that vill surely flow from the practice of economy. Farmers, who, this year, will raise but one-half or one-third of a crop, will have to economize like the very duce to "make the mare go. ' "Smile less," "back" less, wear out your old clothes and thet on corn bread freely.

EGHIZEN dollars (gold) a hundred for flour! board ! and three dollars, per day (greenbacks) for boarding an animal at a livery stable, are the raling rates in Prescott, and still people manage to live here and make money. Where is there another country, or another people that could stand it? Oh, for cheap transportation and two or three good flouring mills.

Quantz that will pay expenses in this part of Arizona, would, in any other country, pay extremely large dividends. Labor here can be procured cheap enough, but the cost of living and transportation is what tells on the country, and these things will be dear until the Indians join the Quakers, which will be after they are made to see the point-of several thousand bay-

CAPTAIN WM. S. LITTLE Informs us that some of the men who came here with him from New Mexico, saw a band of Apaches in a canyon near Sayder's hole The gallant boys of Co. L. Eighth caralry, might be able to raise another crop of bair is that vicinity, were they to go there.

FORT WHIPPLE.-We visited the post, Sunday last, for the first time in many months, and were very kindly treated by officers and men. The old quarters are awful rickety, but are kept scrupulously clean. Hugo Reid, Captain Baker's elficient clerk, showed us through the commissary. which we found well supplied with canned fruits, and the necessary substantials that maintain life. Everything around the commissary denoted that the institution is under charge of competent, faithful officials. New quarters are very badly needed, by officers and men, and it would not surprise us to hear, soon, that work upon a new them. post had been commenced.

DISCOVERY OF RICH PAY DIRT .- A. French, who arrived in town a day or two ago, from Walker's Camp, head of Lynx creek, informs us that himself and others, found, recently, on top of Bradshaw mountain, dirt that prospected all the way from three to fifty cents a pan, but as there was no water close by, they could not work it. He says Jackson & Co. are having a shaft sunk on the Box Elder lode, at Walker's, out of which they have taken some very rich rock. Uncle Billy Pointer was also taking good rock out of his lode.

CAPTAIN HOBERT is now in command at Fort

THANKS to Harry DeWitt, manager "Camp Whipple Comique Variety Troupe," for his kind invitation to attend entertainments recently given by the company. Sickness prevented us from taking advantage of his invitation and witnessing the performances, which are said to have been very good.

EXTERTAINING fears that some accident may have happened to his flour train, Levi Bashford sent out, Thursday morning last, Dan. Kennison. L. S. Jenks and Wm. McCloud, to see what is the matter with it. Another party, sent out a day or two ago for the same purpose got as far as the Cedars, saw some Indians and returned to

JAKE HENKLE, of the Oriental Bakery and Saloon, next door to the MINER office, has secured our good will for all future time by a present of choice fluids calculated to restore us the strength and vitality panned out of us by fever and tooth ache.

Rais .- We had a rousing rain here on the 9th nst. A previous rain in the mountains raised the water in the creeks a little. The weather, the past few days, has been very warm for this

Indians.-Henry Herbert informs us that on last Sunday night, a party of Indians entered his corn-field, close to town, and tried to capture some horses belonging to Jackson & Co., and would have got them were it not for the dogs. Next morning, tracks were seen all over the

MEETING OF PROSPECTORS.—Saturday evening last there assembled at the house of Sam. C. Miller, in Miller's Valley, a short distance from Prescott, some 28 men who propose starting, soon, to prospect the region of country to the northwest of the San Francisco Mountain. The assemblage discussed various topics regarding the proposed trip, and adjourned to meet again soon. Mr. Miller informs us that he has been in that country twice, and that there is a man now with his freight train, who has also been there and saw plenty of gold. This man will accompany the party, should it go. They intend to prospect g individuals who, every afternoon turn out the Little Celorado, below the falls, Diamond river, and Alexander canyon.

We understand that nothing was done, Saturday evening last, towards acquiring title to the town-site, as but few citizens attended the meeting. We hope the matter will not be allowed to go by default. Steps should be taken to secure a dwelling house, on a lot adjoining his lumber property owners and encourage others to become

GONE ON A PROSPECT.-Wednesday morning last, I. Q. Dickason, of this place, Col. Snivelly, and 12 others, passed through town, on their way starcity of dwelling bouses here, and should the to the Black Mountains, to hunt for diggings. Sterling and other mines pay as well as is ex- Hope they'll find some. The Colonel, who is an old Arizonian, has been to White Pine, as have most of the party that accompanied him.

> ANY person wishing to secure an interest in a Photographic gallery should communicate with Cook & Co., of this place. See advertisement,

THE carcasses of thirteen deceased animals, belonging to the deer and antelope families, were brought to town this week by Messrs. D. Kennison, L. S. Jenks, and Wm. McCloud. They were killed in Chino valley and Black mountain.

JAMES BAKER had very good luck in bringing a herd of about 300 cattle, principally cows, here, from New Mexico, a short time ago, not having lost a single head during the journey. We believe the cattle belong to himself and John G. Campbell, of this place.

DEWITT POSTER, a gentleman who has recently arrived here from his native State, New York. has laid us under obligations, for files of leading Eighteen dollars per week (greenbacks) for daily papers published at various places in the

> WE direct attention to the new advertisement of John A. Rush, proprietor of the Willow Creek Saw Mill. He has reduced the price of clear lumber to \$50 per M, and other qualities in pro-

MAJOR PERKINS and a party of Infantry are ont on a scout.

THE indefatigable pioneer, Wm. H. Hardy, arrived here from Hardyville, on the Colorado, Sunday last, in less than three days. Mr. Hardy informed us while here, for he started back again a couple of days ago, that he has nearly fifty miles of new road completed, which shortens the distance considerably between Frescott and the river, and is a decided improvement on the

A HEAVY rain, which lasted over an hour, fell here Thursday night. It was accompanied by thunder and lightning. The ground is now thoroughly soaked.

STERLING.-We are sorry to learn that Cha's Borger, the only gentleman here capable of running the Sterling mill and [chlorination works. has quit. In all probability, work will cease until the arrival of some one from 'San Francisco capable of filling Mr. B's place.

PRESCOTT HOTEL.-Our citizens will, we know, be pleased to learn that this hotel is once more open for the accommodation of the public. The gentlemen having charge of it, Mesars. Chambers & Reeve, understand their business and are determined to keep it in good style. Patronize

THE Elysian Club gave a dance Thursday night last, which was well attended and gave great satisfaction to those who attended and took part in it. We thank the Club for their kind invitation to attend, and regret that circumstances prevented us from so doing.

FROM CAMP AT TOLL-GATE .- N. P. Pierce, A. J. Akin and others arrived from this camp during the week, and say everything was lovely out there. A few nights ago, a select party of citizens convened at the Sutler's store, to hold "camp meeting," but as the spirit moved them to sing a little too loud, the commanding officer had the meeting adjourned, through the instrumentality of the officer of the day and a squad of men, who persuaded the worshippers to adjourn to the guard house, which they did.

SEE new advertisements of Henderson & Co. They offer for sale, cheap, choice wines, liquors,

Mr. BASHPORD, of this place, received by the last mail several documents which were in the mail when captured by the Indians a few weeks ago. The documents received by him were got from Pima Indians, who said they took them them from Apaches (?)

PERSONAL.-We have noticed quite a number of Arizonians upon our streets during the past week. Among them are Mr. Jno. D. Cusenbary of Wickenburg, and Mr. Bull of Hardyville. Mr. B. is an old California typo, and the quondam editor of the Placer county Herald. He informs us that this is his first visit to California since his departure for Arizona over six years ago, and that he is now bound eastward on a visit .- San Bernardino (California) Guardian, July 31st.

### Prescutt, February 21, 1868, The Vital Statistics of California

Show that periodical fevers and acute and chronic disorders of the atomach and howels, are among the most prominent and fatal diseases in this State. Disobedience to the law of health, as regards dust the use of purnishment and of "fast life" generally, have much to do with the prevalence of three maladies in our cities, while in the interior, and aspecially in the gold yielding districts, they are chiefly due to malaria, unwholecome water, and the exposure and privation incident to life in new settlements and mining camps. Now it is a fact that it is as possible to protect the human system against these maladies, as to guard life and property against these maladies, as to guard life and property against these maladies, as to guard life and property against the hoursions of assauding and thieves. Strengthen the vital organization with HOSTETTERS STOMACH BITTEIRS, and it becomes as capable of recisting the active procipie of hpidemic or sedemic disease, as a fire-proof safe is of recisting the action of combustion. This is the experience of thousands who have remained unseathed by malurious disorders in the sicklicest seasons, while their peighbors, who neglected to tone and regulate their systems with this unequalted medicinal stimulant, have failen thick and fast around them. Weakness invites disease. Vigor repels it. Help nature to fight the good fight with infection, whether it be in the air, the water, or the soil, with this unstabless propagation, a compound of the arreat vegetable extracts with the pursest of all disfusive stimulants.
